

# *One-day Symposium on Ultrafast Intense Laser Science*

*December 2nd (Tue), 2008*

*Lecture Room 2nd Floor, Chemistry Bldg. (Main), Hongo Campus*

*The University of Tokyo*

- 9:50-10:00**      *Opening Remarks*  
*Kaoru Yamanouchi (University of Tokyo)*
- 10:00-11:30**      *“Pulse Shaping and Strong Laser Fields: Having Your Way with  
Molecules”*  
*Wendell Hill (University of Maryland)*  
*(Zasshikai Seminar No. 1314)*
- 13:00-14:30**      *“Quantum Control of Femtochemistry:  
Molecular Bond - Forming Catalytic Surface Reactions”*  
*Gustav Gerber (University of Würzburg)*  
*(Zasshikai Seminar No. 1315)*
- 15:00-16:30**      *“Novel features of strong fields at low frequencies, and the failure of the  
tunneling concept”*  
*Howard Reiss (American University)*  
*(Zasshikai Seminar No. 1316)*
- 16:30-16:40**      *Closing Remarks*  
*Farhad Faisal (University Bielefeld)*
